The Newsletter of the Eastern Pennsylvania Gaming Society

---

## Upcoming Meetings

Meetings are held in the Community Room of the Oxford Valley Mall on the first and third Saturdays of every month unless otherwise announced.

The address for the Oxford Valley Mall is 2300 E. Lincoln Highway, Langhorne, PA.

It is located just under two miles from Exit 44 of I-95, proceeding north on US Business Route 1.

## Club Information

The website for the Eastern Pennsylvania Gaming Society is [www.epgs.org](http://www.epgs.org).

The two main Yahoo! groups for the club are [epgs](#) and [epgs\\_announce](#).

Our MeetUp link is <http://www.meetup.com/Eastern-Pennsylvania-Gaming-Society/events/226958756/>.

Also, search for the club on Facebook until its full name, Eastern Pennsylvania Gaming Society.

## GREETINGS FELLOW GAMERS

Below is the dues structure for members of the Eastern Pennsylvania Gaming Society and attendees to their meetings

### Option One

\$50 payment for the entire calendar year, due by the end of January of the calendar year.

### Option Two

\$30 payment for the first half of the calendar year, due by the end of January of the calendar year.

\$30 payment for the second half of the calendar year, due by the end of July of the calendar year.

### Option Three

\$7 per meeting due by the end of the meeting.

As always, the first meeting of a new or lapsed member is free!

For further information about dues, including discounts for family members, .

6<sup>th</sup> overall in *Navegador*

### Aaron Kaltman

Semi-finals in *Ra* and *Slapshot*

### Tim O'Flynn

Finals in *Slapshot*

4<sup>th</sup> overall in *Navegador*

## FEATURED GAME - LISBOA

*Lisboa* is the latest game by Vital Lacerda, designer of the games *Kanban*, *Vinhos*, and *The Gallerist*. The theme of the game is the reconstruction of Lisbon, Portugal after the great earthquake of 1755. It is a city building game with economic and political elements. It is played in rounds, with all players having one turn in each round. Through the play of cards, players schedule hearings to get character favors that involve commerce, construction, and openings. Players need to manage influence, construction licenses, store permits, church power, workers, and money.

As in all games by Vital Lacerda, *Lisboa* challenges players to make multiple interconnected decisions that will benefit their position. This game seems to give players the ability to impact other players' turns and options more significantly than his other designs, with the possible exception of *Kanban*. It has received generally positive reviews from the gaming community.
